

## **B.C. communities speak human rights: What Chilliwack said**

---

Workshop session for decision makers

Guide for facilitators

## Background

Soon after BC's Office of the Human Rights Commissioner was established in 2019, we began work on the Baseline Project, a multi-year project to map out the state of human rights in B.C. As part of the Baseline Project, we want to better understand human rights issues in different regions and in both urban and rural communities. To do this, we conducted in-depth research in several communities including Chilliwack. This informed the development of our Community Briefs.

Each individual Community Brief tells the human rights story of a single community. Our Community Brief series offers a sample of the critical human rights issues affecting people in different parts of the province and explores how they manifest in unique ways in each community. The Community Briefs also celebrate community strengths and actions being taken to address inequality, discrimination and injustice in communities throughout B.C.

Following community consultations, several community members showed interest in educational resources that would help them share the information from these briefs. This presentation is one of these educational resources. Community members are welcome to use the portions of the session that meet their needs to facilitate sessions in community.

## Note to facilitators

This guide was created for Chilliwack community members who would like to share the findings of the Chilliwack Baseline Community Briefs with decision makers. An explanation of the origin and purpose of the Community Briefs is included in this guide.

It includes steps to follow to introduce the material on each slide in the presentation. Related materials are included in the third column.

Sample wording for each section is in italics. We encourage you to adapt the wording to meet your needs.

All areas and issues from the Baseline Community Brief are included in the presentation and facilitators' guide. You are welcome to remove the areas and issues that you don't wish to focus on. To remove slides from the presentation, use the [ilovePDF tool](https://www.ilovepdf.com/help/documentation), at <https://www.ilovepdf.com/help/documentation> to split the PDF version of the presentation and merge the sections that you wish to include.

A video with stories and perspectives shared by some of the Chilliwack community participants is posted on the Chilliwack Baseline Community Brief webpage, at [baseline.bchumanrights.ca/chilliwack](http://baseline.bchumanrights.ca/chilliwack). You may wish to share the video or portions of the video during your presentation.

Appendix 1 was developed in response to requests from community members. It provides strategies to use and avoid when presenting to participants who may be resistant to acknowledging the issues identified in the Baseline Community Brief.

	<p>3. Acknowledge additional sources of information in the Brief</p> <ul style="list-style-type: none"> <li><i>This Community Brief reflects what we learned from all those who contributed to this project, supplemented with data from Statistics Canada, media sources and other relevant secondary sources</i></li> </ul> <p>4. Provide a disclaimer</p> <ul style="list-style-type: none"> <li><i>This Community Brief provides a snapshot. It is not comprehensive. BCOHRC acknowledges there are human rights issues that staff were unable to learn about or include in the brief and that much more could be said about each issue that is included.</i></li> </ul>	
Key human rights issues	<p>Introduce the process</p> <ol style="list-style-type: none"> <li><i>We will be looking at the principal human rights issues identified during consultations with community members, but first you consider a brief snapshot of the community.</i></li> </ol>	
Community snapshot	<p>1. Connect these issues with the ones identified by the participants in the last activity.</p> <ul style="list-style-type: none"> <li><i>The issues identified in the Community Brief fall into four key areas:</i> <ul style="list-style-type: none"> <li><i>One area is Housing.</i></li> <li><i>A second area is Health.</i></li> <li><i>A third area is discrimination and hate.</i></li> <li><i>And the final area is employment.</i></li> </ul> </li> <li><i>We will look at each of these areas in detail in a few minutes.</i></li> </ul>	
Human rights issues in housing	<p>Introduce human rights issues in housing</p> <ul style="list-style-type: none"> <li><i>Several human rights issues were identified in the area of housing. Let's look at those now.</i></li> </ul>	

<p>Key issues in housing</p>	<p>Introduce the issues identified in the area of housing</p> <ul style="list-style-type: none"> <li>• <i>Community members identified several key human rights issues related to housing.</i></li> <li>• <i>The <b>housing crisis</b> was the human rights issue most frequently identified in Chilliwack.</i></li> <li>• <i>And community members don't experience barriers to accessing housing equally.</i></li> <li>• <i>There are <b>inequities</b> in accessing housing for <b>Indigenous people</b> and for a <b>diverse spectrum of needs</b></i></li> </ul>	
<p>What community members said about housing crisis</p>	<p>1. 	<ul style="list-style-type: none"> <li>• <i>Community members identified several additional barriers to accessing health care in Chilliwack.</i></li> <li>• <i>Inadequate access to <b>transportation</b>, both to specialized treatment and for Indigenous people living on reserve, prevents many from accessing the care they need.</i></li> <li>• <i><b>Navigating service pathways</b> to access health care is especially challenging for certain groups of people.</i></li> <li>• <i>People on fixed incomes also face barriers to <b>accessing dental care</b>.</i></li> </ul>	
<p>Impacts of barriers to accessing health care</p>	<p>1. Read the description of the impacts related to the right to health care on the next slide</p> <ul style="list-style-type: none"> <li>• <i>Here's what one community share about barriers to accessing dental care</i> <ul style="list-style-type: none"> <li>- <i>"I only had two dentist appointments this year and I've already gone through whatever money the disability has for my dentist. 	<ul style="list-style-type: none"> <li>• <i>Discrimination also shows up as <b>minimized interaction with medical staff</b></i></li> <li>• <i>Expanding <b>beyond Indigenous cultural safety training</b>, to include cultural humility and cultural appropriate practice is needed to serve the growing Indigenous and visible minority populations in Chilliwack.</i></li> </ul>

They go to hospital. They get treated like dogs. Health care professionals] give you antibiotics or antipsychotics but how are you supposed to take them? 	<p>away from even joining in the benign things like it's something as simple as going to a youth dance. You get protests, or like, that youth now going becomes a political act. It shouldn't be a political act. It should just be 'I'm going to hang out with my friends.'"</p>	
Key issues in employment	<p>1.Introduce the issues identified in the area of employment</p> <ul style="list-style-type: none"> <li>• <i>Community members identified four key human rights issues in the area of employment. What community members said about underemployment	<p>1.Describe the issues in employment related to underemployment</p> <ul style="list-style-type: none"> <li>• <i>Underemployment occurs when an individual cannot find full-time work or takes a job that does not reflect their education and training.</i></li> <li>• <i>This makes it difficult to meet their financial needs.</i></li> <li>• <i>Underemployment and the underutilization of people's skills has <b>impacts</b> on two communities in Chilliwack more negatively than others: <b>immigrants</b> and <b>people with disabilities</b>.</i></li> </ul>

Impacts of discrimination in the workplace	<p>1. Read the description of discrimination in the workplace:</p> <ul style="list-style-type: none"> <li>• Here's how two community members described discrimination in the workplace <ul style="list-style-type: none"> <li>- "Women often get left out of high positions in the workplace ... especially if you're young. The employer thinks the person has kids ... they take that into consideration, and women are sometimes discriminated against because of that."</li> </ul> </li> </ul>	
What community members said about migrant workers' working and living conditions	<p>1. Describe the issues in employment related to working and living conditions for migrant workers</p> <ul style="list-style-type: none"> <li>• Migrant workers have their work visas tied to an employer, which can create a disproportionate <b>power imbalance</b>.</li> <li>• Migrant workers can experience <b>sub-standard working and living conditions</b>.</li> <li>• And some experience psychological, financial, physical or sexual <b>abuse</b> by their employer.</li> <li>• Migrant workers also face the <b>risk of being exploited</b> by licensed recruiters, who help employers in B.C. recruit foreign workers.</li> </ul>

# Appendix 1: Strategies to initiate and engage in challenging conversations

---

The following strategies may be helpful when interacting with groups who are resistant to acknowledging the issues included in the Baseline Community Brief.

## Strategies to use

**1. Identify shared goals and values**

Begin by identifying shared values and visions for your community. Highlight how any proposed changes will help meet these shared goals.

**2. Highlight shared negative impacts of the issue**

Seeing how the issues impact the community may help people to understand why it is important to acknowledge and address them.

**3. Build empathy through storytelling**

Specific, real examples of lived experience may help people to understand the depth of the impact of the issue.

**4. Be curious about alternative perspectives**

Demonstrating an openness to understanding the reasons behind the issue may help increase the openness of others involved to consider your concerns. Your own openness may result in you shifting your own understanding.

**5. Clarify desired outcomes**

If you bring forward recommendations to address an issue, clarity in what changes you would like to see and why they are important to you and to your shared goals and values will help motivate others to consider making changes.

**6. Offer to be part of the solution**

Offering to making implementation of the requested changes a shared task may encourage others to consider these changes.

**7. Be aware of reactions and adjust your approach if necessary**

If you notice signs of disengagement or resistance, acknowledge what you notice and ask participants what they need for this conversation to work. Consider stepping back, revising your approach or postponing the conversation.

## Strategies to avoid

### **1. Shaming and blaming**

Making a person or group feel personally responsible for an issue often results in them shutting down and disengaging. Focus on the issue and not the people.

### **2. Information overload**

A long monologue with no opportunity for participants to contribute their ideas may lead to disengagement. Keep your comments brief and encourage participant engagement.

### **3. Speaking on behalf of someone without permission**

While you have permission to share the personal stories provided in the Baseline Community Brief and in this presentation, you may wish to share stories from other people in your community who have been impacted by these issues. It is important to have their permission before speaking on their behalf.

### **4. Expecting immediate signs of raised awareness and positive change**

Making changes, especially in behaviours and attitudes, takes time. Change involves humility and self-reflection. Expect changes in awareness and actions, but not immediately. Consider requesting a second meeting if, after several weeks, you have seen no progress.
